You my friend are special, you decided to grab this report. You are an action taker now and you're in the right place.

There's only a few methods to get Traffic Online:

1. Paid traffic, which can cost you an arm and a leg
2. Organic traffic from google or social networks, this can take months or even year, to be honest...this sucks
3. The method you are about to discover totally for free.

The number 1 GOAL of this report is **to teach you how to get free traffic to make money! That's why we all are in online business in the first place no?... Ok, Cool!**

Let's get started!

Ok, To Get a lot of traffic with this method you just need 3 things:

1. Join the free traffic machines for free, I'll tell you below
2. Get the software **to automate the process**
3. Promote whatever you want with the traffic obtained

That's it, this is all you need and the best part is that **with this software your computer will do all the hard work to get you traffic**, you will just invest from 30 min to an hour to promote your offers every day.

Now the 3 steps in details to follow, for this method are the following:

Step 1. Join The Free Traffic Machines

Join the **Free traffic machines** I mention below. They all are free to join. Use a GMAIL account for that. The more you join the more traffic power you will get. Think about this:

You will sign up under me, so you will be on my team and of course you can use the ones you prefer too.

Note:

Redeem code “**Newmember**” or “**Welcome**” in most of them to get from 5000 to 10000 credits for free at sign up

The best thing is that you not only will earn credits but money, so get your paypal and/or bitcoin accounts ready to get paid. Cool nuh!

NOTE:

Do not feel overwhelmed and try to join all these machines at once, join the first 10 or 20 and let them run for a while. Then join to the others.

*All of these systems have both a **FREE** and a Paid Membership. For this strategy, we will be using **only the FREE memberships**, so don't worry, **you won't have to pay anything**.*

Once you sign up and confirm your subscription you will start receiving emails, you will have to open each email, click on a link inside and wait for some seconds for your account to be credited.

But remember with my secret software you won't have to click on any link or to read any email, it will be your computer who will make the hard work.

Once you have a big amount of credits you can promote your business, affiliate offers or any URL you want by:

1. Using Text link ads
2. Using Banner ads, or
3. Sending Free SOLO Ads to these Traffic Machines' members.

*This is like having your own list, to send **FREE SOLO ads** at will, without paying a dime, pretty cool Nuh?*

*But Hector, I don't want to spend the whole day clicking on emails to earn credits. **How can you solved that?***

*I'm glad you ask. Relax my friend, the main purpose of this blueprint, I mean with my method, **is that you won't have to be reading emails or dedicate hundreds of hours clicking on emails to earn credits, you won't even dedicate one single minute to earn credits, your computer will do all the hard work**. I will show you how below.*

Step 2. Get a Copy of The Magic Software

From here, you have 2 options:

- 1) To spend the whole day clicking on emails to earn credits, or
- 2) To use [The Secret](#) software (fully recommend) **to automate the process to earn thousands of credits without you touching a single key of your laptop.**

*For less that the cost of a pizza you can get a little Great Piece of Software for it **to do the Hard Work for you** and gets you tons of credits from your free traffic machines to promote your websites, affiliate, CPA offers, any URL or squeeze page to build your lists for free, get leads, visitors and get more affiliate commisions and at the same time*

earn some dollars or bitcoins. And the best part...you won't have to spend a minute on your computer trying to get traffic because this little software will do it for you.

The final use you give your generated traffic generated is totally up to you. You can even sell this traffic of yours as a service on [fiverr.com](https://www.fiverr.com)

This will be the only investment you will have to do to boost your traffic generation technique, [More Info HERE](#)

You **will recover your investment** the very first minute you buy this software **with our bonuses.**

P.S. There is a secret **Bonus worth pricele\$\$** inside [Details HERE](#).

Get Access To The [Software](#) and [Configuration Guide](#)

Step 3. Promote your offers

Use the Credits earned to promote your business. You can do it by advertising on these sites using banners, text ad or my preferred SOLO Ads, and all without paying a single dime.

Once you have enough credits to promote your business on every Free Traffic machine, all you have to do is login every one of them and purchase Text ads, banner ad sor SOLO Ads with your earned credits, **no money out of your pocket. That's it!**

And you can **send SOLO Ads almost daily on all of then**, even though there are some where you can do it every 2 or 3 days apart. But the thing is that you will be getting tons of traffic from one or others traffic machines.

Where can I send the traffic I generate with this method?

Good question, you can use it:

- 1. To send visitors to any Affiliate or CPA promotion,*
- 2. To drive traffic to any URL that you want,*
- 3. To send visitors to your youtube channel or social media,*
- 4. To send people to an opt-in or landing page to build your list,*
- 5. To offer this as a service on places like fiverr.com,*
- 6. To offer your own SOLO ad service to other people,*
- 7. To do whatever you want with it, **the sky is the limit.***

I've been using my method on affiliate marketing for a while now.

*With this method I use the power of FREE SOLO ads, Text and Banner ads **to drive FREE traffic** every day to my websites without paying a single dime.*

Wait One last Step...

Step 4. Track Your Performance

In order for you to know how many clicks your URLs (for your websites or affiliate offers) are receiving you need a tracking system, this is the only way to know what Free Traffic Machine is working and what others doesn't (if it is the case). You can use a free tracking service called [Bit.ly](https://bit.ly) to track that.

The way to use this app is pretty simple, once you register for free and login to your dashboard, just click on create link, enter the URL you want to track with the system and the app will give you a link in the

form of <http://bit.ly/2xUB2uD> that you will have to use on your email campaigns (aka free SOLO Ads).

Paste your ugly link here

Then click here

Rinse and repeate, join as many Free Traffic machines as you want, the more the better, the more, the fastest results you will get.

We have just provided you a brief list of them. You can join of course to some other systems and not just the ones we provided, but join only to systems that just requires you to click on the link and stay on the page for a few seconds and do not need to perform a second action.

There you have it, that's all there is to it my friend, the whole method in just 3 simple steps.

*Remember, **this system works!**, so you just need to focus on the method and do not turn your mind and focus on another things, do not hesitate, do not procrastinate, act now, do not be like others that find great and proven methods but they are lazy enough to perform some tasks, you are different to them, invest some effort in the method and your traffic problems will end up soon.*

TIP

*Once you have consistent traffic, start driving traffic to a squeeze page, capture page or landing page **to start building your list**. Once you have a list, you will be able to promote affiliate offers, without paying a single dime ever.*

*There you have it **a full and proven recipe to succeed online** that I wish I could have when I just started back in 2008, and now is in your hands, you just need to follow the directions on it.*

Focus your mind only on what really motivates you to start your online business in the first place, something that motivates you to stay on your computer everyday finding new ways to take home the money you always wanted and make your family happy, and finally live your life in your own terms scaping from the rat race and your boring 9-5 job.

*If for some reason you need any support on how to deploy this method, **do not hesitate in to contact me**. Remember my goal is to help you succeed online by using only **FREE TRAFFIC**. If you succeed I then succeed.*

How to Succeed With This Method

The Foundation and Right Mindset To Succeed Online

The majority of people trying to do online businesses, are not making any money. Why is this?, Well, they bounce around buying product after product doing nothing. Expecting money to just fly out their laptops without applying methods.

*It ain't going to **HAPPEN!***

*You got to **TAKE ACTION ON A SIMPLE PLAN** that works!*

*But to succeed online you need a proven method, and with this method you will learn how to drive tons of **FREE** traffic to whatever website or affiliate offer you want it to and make money with just 3 simple steps.*

I did exactly this and made \$154.04 in one day

And another day I made \$145.18

*Multiple \$100+ paydays like clockwork Using this exact blueprint!, **The Key...perseverance.***

*People who go into affiliate marketing, don't make anything because they don't have a **PLAN** that actually works. **BUT THIS WORKS.***

The problem facing this industry is that all the "goorooos" are teaching stuff that doesn't work anymore, require a lot of money to invest or simply only works to guys with huge lists.

They give you a missing puzzle and have you spinning your wheels for years and years and this only leads you to buy shiny object after shiny objects. But being honest with yourself, how many products have you purchased in the last year?, how many have you implemented fully to the T?, how much money have you made purely online in the last year?

*If you haven't made any progress, you need to stop playing around and get serious if you **REALLY** want to make an easy \$50-\$100 per day only working **30 mins** per day.*

***DEDICATE** 30 mins of your day to this and you will discover the most simplest way to make up to **\$100+** in only **30 min** per day.*

*Just imagine for a second how much an extra \$100 per day would do for you? **That's \$3,000 per month!***

That's enough for most people to quit their jobs!

- *Work for themselves without a boss*
- *Live life on their own terms*
- *Do the things they love*
- *Get the things they love*
- *Live wherever they want*
- *Take vacations whenever they want*
- *Spend more time with their families*
- *Escape for the rat race they living in*
- *Quit their bored 9-5 job*

***LIFE** is meant to be lived and this can be your path to get there!*

*This is the simplest way to hit an easy **\$100 per day**
A lot of other outdated methods don't work or take too long.*

The path to follow from my very special point of view is:

Traffic → List Building → Affiliate/CPA Marketing

*If you are new in the IM niche **my best advice to you is**: Learn everything you can about traffic generation methods, dedicate the time (by using this method of course) to generate consistent traffic and then **drive the traffic to build your list first** and at the end start promoting any affiliate/CPA offer you want. Results are guaranteed if*

you just follow these directions. Please do not make the mistake I made by not building my list when I first started, you must learn from other people's mistakes.

This is a simple 3 steps Method.

And you could be hitting \$100 paydays with only 30 mins of work per day, but need to be consistent and promote your affiliate or CPA offers every day (your computer will do the hard work).

It's so simple, but 98% people do it all wrong. But please do not be as I was when I first started, focus on one thing at a time and be consistent.

People make the mistake (I was like this), of promoting several "magic products" at the same time. The best is to find a system, a method or program that really works, and promote only this for a while. And if it works, promote it until it works no more.

The best thing is that you won't need:

- *To have experience*
- *To know what SEO is*
- *To have a website or blog*
- *To have a list already*
- *To depend on google or any search engine*
- *To have money to start with*
- *To be on your computer the whole day*
- *Pay for traffic*

You can start from scratch today from here. All you need to have for the system to work, are just this 4 things:

- 1 - A computer
- 2 - An Internet connection
- 3 - A Paypal account which is free
- 4 - To follow my method (this blueprint)

And as you're reading this report, I can assume you already have a computer and an internet connection.

You may already have a paypal account, so you're all set now. If you don't, simply go to [paypal.com](https://www.paypal.com) and open a free account. This can be done within 5 mins or less.

So enough for talking, let's get started!

Well, with the method I will explain below, you won't have to spend a lot of time trying to generate traffic.

Instead I'm gonna show the the free traffic generation machines and the secret software tool I use to boost these **FREE traffic machines**. So that you will just need to invest at least half an hour per day for the strategy to work. The rest of the day will be your computer alone, who will get all the traffic you need.

The whole purpose of this method is to drive FREE traffic to any URL you want while still getting a lot of time to spend with your family and the best part without paying any red cent to get sales and commissions. Period

The beauty of my method is that you will know the cheap and secret piece of software I use every single day to get credits, “AKA” free traffic, to run on my email campaigns.

No, with my method you won't need any email management software like Aweber or getresponse, at least you want to build your own list of course with the traffic you are going to get.

*By the way you can get my **FREE PDF** guide I created, for any marketer to deploy their own email management system with a **FREE**, easy to install and use PHP script that you can run on your own server, in case you have one and want to stop paying for your current email service. Get it [HERE](#).*

Or if you prefer a done for you service to manage your email marketing, then I do recommend [AIOP](#) (All in one profits), because you will get tens of tools like a great autoresponder, a splash/landing page builder, a free URL rotator a free hosting for unlimited websites for just one pretty low monthly payment of just \$10 bucks p/month. So is a highly recommended service to complement this blueprint.

*Well let's move on to our secret strategy to generate tons of **FREE** traffic.*
