# How to Cash Out Your Bitcoin

Most countries have Bitcoin ATMs, the shops and stores that accept bitcoin as the payment method (*CHECK BITCOIN ATM LOCATIONS WORLDWIDE HERE*).

If your country or nearby places don't have these, don't worry you can exchange your bitcoin into dollars or other currencies with bitcoin wallet then just withdraw it to your bank account (Wire Payment or Credit/debit card withdrawal) or simply use the bitcoin wallet's prepaid debit card (Load the USD or other currencies balance from your bitcoin wallet to prepaid debit card). That prepaid debit card can be use in any ATMs that support MasterCard or Visa.

## **Module 3:**

# Massive Income Opportunities from Bitcoin

## **Investment**

Bitcoin is Gold 2.0 and even better than gold. Last year bitcoin price was below \$1,000, If you purchased bitcoin last year when the price approximately at \$700 per 1 BTC...check the price per bitcoin now, you could get back almost 10 times of investment...! limited supply and high demand of this currency may cause prices to continue to increase.

## **Bitcoin Mining**

Bitcoin miners help keep the Bitcoin network secure by approving transactions and earning bitcoin at the same time. Mining is an important and integral part of Bitcoin that ensures fairness while keeping the Bitcoin network stable, safe and secure. To make serious income with this we need to join up with the Big Boy with huge mining farm.
